EXPERIENCE

D.N.V. OVERSEAS · International Export Business

Dubai, UAE

Co-Founder & CFO

Dec 2023 – Present

- Designed three-statement financial model and FP&A framework across 3 international markets, enabling weekly variance analysis, budgeting, and actuals-vs-budget P&L review; delivered 12pp margin improvement within 8 months by converting reactive reporting into forward-looking pricing decisions.
- Architected pricing strategy and capital planning for \$450K+ in supply contracts across 25+ international buyers, building sensitivity and scenario models to defend margin targets across 3 currency-volatile markets — secured favourable commercial terms exceeding margin targets in 80% of negotiations.
- Engineered PE-style LBO and DCF valuation platform integrating debt schedule, comparable company analysis, cash flow forecasting, and 3-scenario stress tests; delivered Buy recommendation at 26.3% IRR and 3.22x MOIC, deployed as a live investment committee dashboard.
- Identified \$38K in avoidable working capital costs through ABC cost allocation and cash conversion cycle analysis across 4 markets; reallocated freed capital to higher-margin geographies, improving blended net margin by 9% and informing capital planning for the following fiscal year.

RAVI FOODS PVT. LTD. · FMCG Export Manufacturer

Kolkata, India

Finance & Market Analyst

Dec 2022 – Aug 2023

- Led profitability analysis and revenue forecasting across 4 export markets, isolating 2 underperforming segments through ABC costing; recommended and implemented pricing restructure that lifted blended margin by 18% within one quarter, confirmed in management accounts review.
- Constructed financial planning model integrating FX risk, logistics cost, and demand forecasting for international contracts, reducing margin leakage by 9% and cutting cost-per-supply-unit by 11% through systematic cost allocation across all active supply agreements.

RADBOARDS PVT. LTD. · Digital Marketing & Sales Startup

Kolkata, India

Sales & Marketing Associate

Aug 2022 – Nov 2022

- Designed ROI tracking and budget management system for outbound campaigns in Excel, producing weekly actuals-vs-budget variance reports that identified 3 overspend categories and enabled 22% reallocation of campaign budget to higher-performing channels within one month.
- Constructed pipeline forecasting model across 500+ outreach contacts projecting ₹14L+ in qualified revenue, with consolidated financial reporting summaries used in monthly management reviews to guide BD prioritisation.
