Quantitative: Financial Modeling, TAM/SAM/SOM Analysis, Cost-Benefit Analysis, Unit Economics, Scenario Modeling, KPI Definition, Variance Analysis

Tools & Tech: SQL, Excel (Advanced), Tableau, Power BI, Salesforce Analytics, Python (AI Agent Development), Streamlit, Claude API / LLM Integration

Certifications: MBA Finance (in progress) — Middlesex University Dubai

PROFESSIONAL EXPERIENCE

D.N.V. Overseas | Co-Founder & Operations Lead — Dubai, UAE, Dec 2023 – Present

- ▶ **Lifted on-time delivery from 60% to 95%** by conducting root cause analysis on operational bottlenecks and standardizing processes across export workflows.
- ▶ **Cut administrative lead time by 25%** by building a data-driven decision-making framework that analyzed trade data and supply chain metrics.
- ▶ **Reduced logistics costs by 20%** by designing a supply chain optimization model and evaluating 15+ logistics partners against cost and service benchmarks.
- ▶ **Enabled data-driven monthly decision-making** by building a KPI dashboard tracking operational metrics and presenting business health reports to stakeholders.

Ravi Foods Pvt. Ltd. | Business Operations & Market Analysis Manager — Hyderabad, India, Dec 2022 – Aug 2023

- ▶ **Identified a \$320K market opportunity** by performing comprehensive TAM/SAM/SOM sizing for Russia and Mongolia, incorporating adoption curves and market dynamics.
- ▶ **Lifted sales team productivity by 30%** by analyzing customer acquisition channels and cost structures, mapping the sales funnel, and identifying bottlenecks.
- ▶ **Achieved 100% regulatory compliance across 4 markets** by building an operational framework that documented processes, identified gaps, and redesigned workflows.
- ▶ **Cut logistics costs by 20%** through supply chain analysis evaluating 20+ partners on service levels and pricing, recommending an optimal vendor mix.
- ▶ **Identified high-performing customer segments** by analyzing contract profitability by customer and market through structured financial data analysis.

AI & TECHNICAL PROJECTS

- ▶ **AI Financial Analysis Agent** — Built an AI tool analyzing financial datasets to surface profitability trends and generate data-driven recommendations.
